We do it. We split The Internet at SpaceX.

Mixfixir Defence per Country , is a State-members' Constitution at work. Per person. Per Own Particle Cloud System, in Orbit... where we meet as Living Creatures in Space.

April2026. We learned a relevant lesson. When ... when... a Country-management works from Evolution of Psychose – and pushes the Red Bottom for Nuclear Attacks - , this result in Loss of Internet. Yes, depending on number of Nuclear Bombs dropped. But, the Country that starts to shake & sabotage will be attacked within a few hours. Infrastructures disappear in all Nations. All statemembers of Mixfixir, where Human in Nature residences in Individual Right on Planet Earth.

SpaceX Pentagon is 1 system.

On American territory, this system must be disconnected from Consumer products and its Factory productionlines. 2 Datacentra; 2 Offices; 2 types of Engineers; 2 Legal systems. Military disconnected from Retail in daily life. Individual Rights in 2 sub-systems.

We open Space Office Mixfixir in Canada Constitution.

Nearby USA, but disconnected in Community on Location , in sub-Cultures.

In Space bathroom Cleansing of the International Criminal Court ; removal of UN – EU and more rotting Institutes. In Tilburg, where we station Mixfixir HQ.

Both systems – Military next to Consumer – will have their Own Arbitration Court of Law, though anchored in the coming Treaty Arbitration Rights Mixfixir. Thus Defence systems runs their Own Court of Law, per memberstate for National Territory Defence from National Constitution.
